

# DataSheet

With one of the widest ranges available on the market today, Commander® is firmly established as a true market leader. Time has proved these portable fire extinguishers as a dependable choice for almost any situation, and reliable performance is guaranteed. Furthermore the Commander® 6ltr, 9ltr, 6kg and 9kg models now boast extremely high fire ratings as well as the British Kitemark Certification.

## COMMANDER®

### WATER FIRE EXTINGUISHERS

Water is one of the most common types of extinguisher, and it's clear why – there's no Health and Safety hazards to worry about, they are inexpensive to buy and almost free to refill, and it's an effective and safe extinguishing medium. Our 3ltr Water has an additive to further enhance the performance, acting as a 'wetting agent'. There are no environmental constraints on disposing of the contents, making water extinguishers extremely easy to work with.

Our larger models consist of very effective fire ratings, the 6 litre with a 21A fire rating, and a 9 litre with a 27A rating. Both units are 35kVa dielectrically tested and safe for inadvertent use on fires involving live electrical equipment. The units are Kitemarked and come with our full 5-year warranty.

Technical Specification	WSEX3A	WSWX6	WSWX9
Capacity	3 litre	6 litre	9 litre
Fire Rating	13A	21A	27A
Extinguishing Medium	Water + additive	Water + additive	Water + additive
Working Pressure	14 bar	14 bar	14 bar
Temperature Range	+5°-+60°C	+5°-+60°C	+5°-+60°C
Cylinder Material	Steel	Steel	Steel
Pressuring Gas	Nitrogen	Nitrogen	Nitrogen
